

ICARUS ZRW1200

BENCHTOP ELECTRIC OVEN

Product #0016

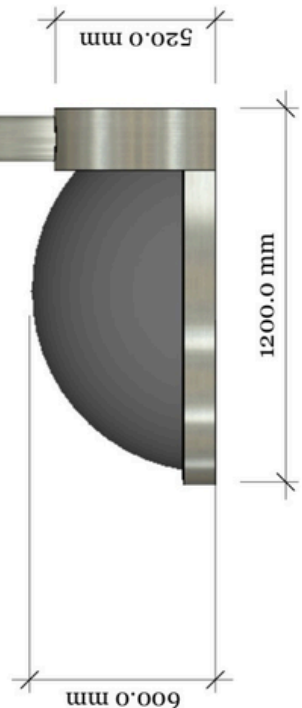

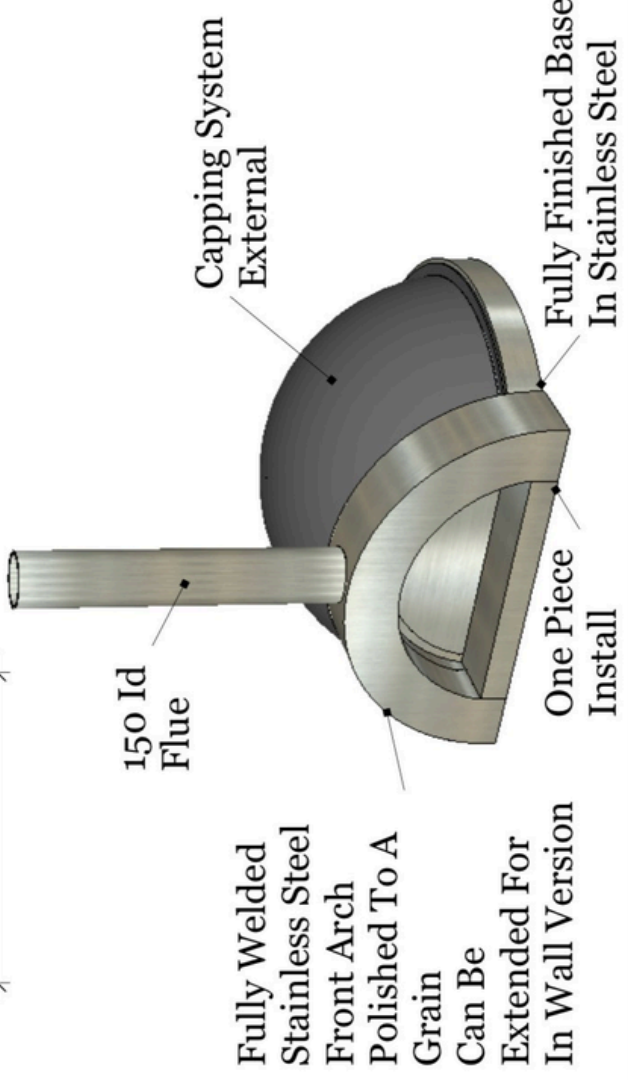

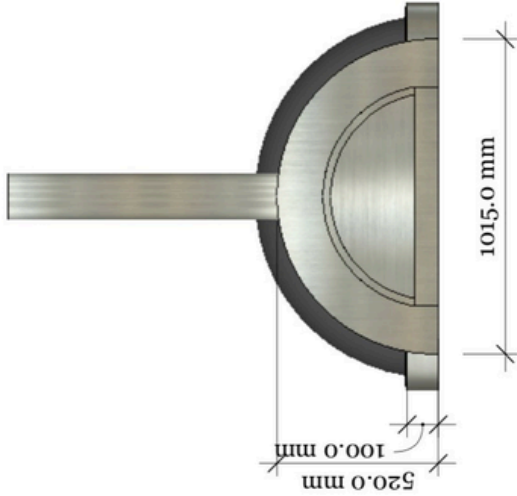

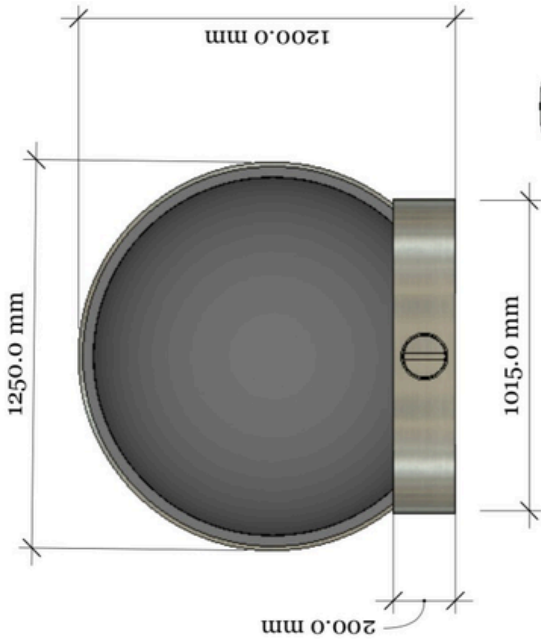

Handcrafted in Perth, Western Australia, the Zesti Icarus ZRW Benchtop Electric Oven brings commercial-grade performance to the domestic kitchen. Designed for precision and power, this compact oven is equipped with a high-heat 20Amp silicon carbide element capable of reaching 500°C, delivering and mimicking the authentic woodfired experience with electric convenience. Built from premium 304-grade stainless steel and Armorax refractory materials, the ZRW is fully insulated and engineered to retain heat efficiently for consistent cooking results. Its sleek dome design, and variable temperature control make it ideal for everything from fast, blistered pizzas to roasts, bread, desserts, and much more.

Each unit is individually crafted, colour-coded to your specification, and built to last — a true showcase of Australian design, innovation, and performance.

Key Features & Specifications
